LED PROFILE — FOR GRID 0015 AND CASCADE 0114

Sleek aluminium LED profile for panel models GRID 0015 and CASCADE 0114. It carries and protects the LED strips while enhancing the texture and depth of the panels. LED strips for installation within the profile are selected by the customer.

Plan the power supply before installation. A qualified electrician may be required for the electrical connection.

INSTALLATION

- Fitted during panel installation — plan position and cabling in advance
- Electrical connection by a qualified electrician where required
- Store in original packaging in a dry interior until installation

DELIVERY

IN STOCK**HANDLING 1-3 BUSINESS DAYS****EU DELIVERY 5-10 BUSINESS DAYS**

Custom requests may require additional lead time.
