LED PROJECTOR — FOR LIGNEO + LED 0112

High-quality aluminium projector designed for the LIGNEO + LED 0112 panel. It is installed at the end of the Kandes aluminium profile (0395) and provides the light source for the LIGNEO relief.

Plan the power supply before installation. A qualified electrician may be required for the electrical connection.

INSTALLATION

- Fitted during panel installation — plan position and cabling in advance
- Electrical connection by a qualified electrician where required
- Store in original packaging in a dry interior until installation

DELIVERY

IN STOCK**HANDLING 1-3 BUSINESS DAYS****EU DELIVERY 5-10 BUSINESS DAYS**

Custom requests may require additional lead time.
